National Research Foundation (NRF) Database

Why do I need the NRF Database?

If you are a postgraduate student and want to see all current and completed research done on a specific topic, you can consult this database.

This database provides information on approximately 170,000 South African current and completed research projects including theses and dissertations. This source now provides information on all fields of science since 1919.

How do I access this database?

http://www.ufs.ac.za

Click on: Library

Select Resources

Click on Electronic Resources & Accept Terms and Conditions

The A-Z list will be displayed

Click on N or Scroll down to NRF - Current and Complete Research

Then Click ON Campus / Off Campus

Do a Basic or Advanced search

Search by Title, Author, Institution or Titles, subjects’ abstracts

For more information, please consult your Faculty Librarian
